

ENVIRONMENTAL POLICY

As a leading producer of automotive safety components, Autoliv and Norma are committed to the development and manufacture of quality safety systems to save more lives.

We are committed to operate our business in an environmentally sustainable manner and to develop and produce products in an energy efficient way while preventing pollution and limiting the environmental impact without compromising product quality and safety.

- ▶ We engage our employees to continually improve our environmental sustainability in their daily work.
- ▶ We commit to continuous improvement of the environmental management system, to fulfill compliance obligations and to enhance our environmental performance.
